Subject: Docket 95-116

RECEIVED

MAR 25 2003

Federal Communications Commission
Office of the Secretary

Hello,

I was recently shopping for a new cell phone provider in Austin, Texas. Every carrier that I spoke with said that there was virtually no chance that "cell phone portability" would be enabled this year.

Is that true?

Is there anything I can do to help it to pass?

Thank you,

Chris
